Perfect Smile
— Dental Ceramics —

The Gold Standard of Care

Say hello to the world's most accurate and best-selling photogrammetry. ICam photogrammetry quickly and easily captures highly precise, three-dimensional representations of dental implant positions. It stitches together a series of two-dimensional images to digitally map the precise positioning and angulation of implants.

Chairside Benefits

- Save valuable chair time due to easy placement of the ICamBodies and the rapid measurements with the ICam
- Predictable outcome that is independent of the skill level of the user.
- Elimination of costs associated with impression materials for multi-implants.
- No re-tries because the first time will have a perfect fit.

ICAM
POWERED BY IMETRIC

We offer 1 hour chairside services with our Photogrammetry package.
Call us to book an appointment for your next Full Arch case.
